Our dedicated service department, staffed by highly trained service administrators and engineers are always happy to help.

BRITISH WOODLAND LOGS

The perfect finishing touch in the worlds most realistic electric fire, created with materials from nature itself. Starting with a trio to the fundamental fuel beds to recreate the essence of the forest floor; organic husk, green moss land and charred chippings create the base.

LUXE

If you prefer a clean cut, engineered look, choose the Luxe.

OAK

For a more rustic campfire feel, the Oak logs are the perfect choice.

INSTALL OPTIONS

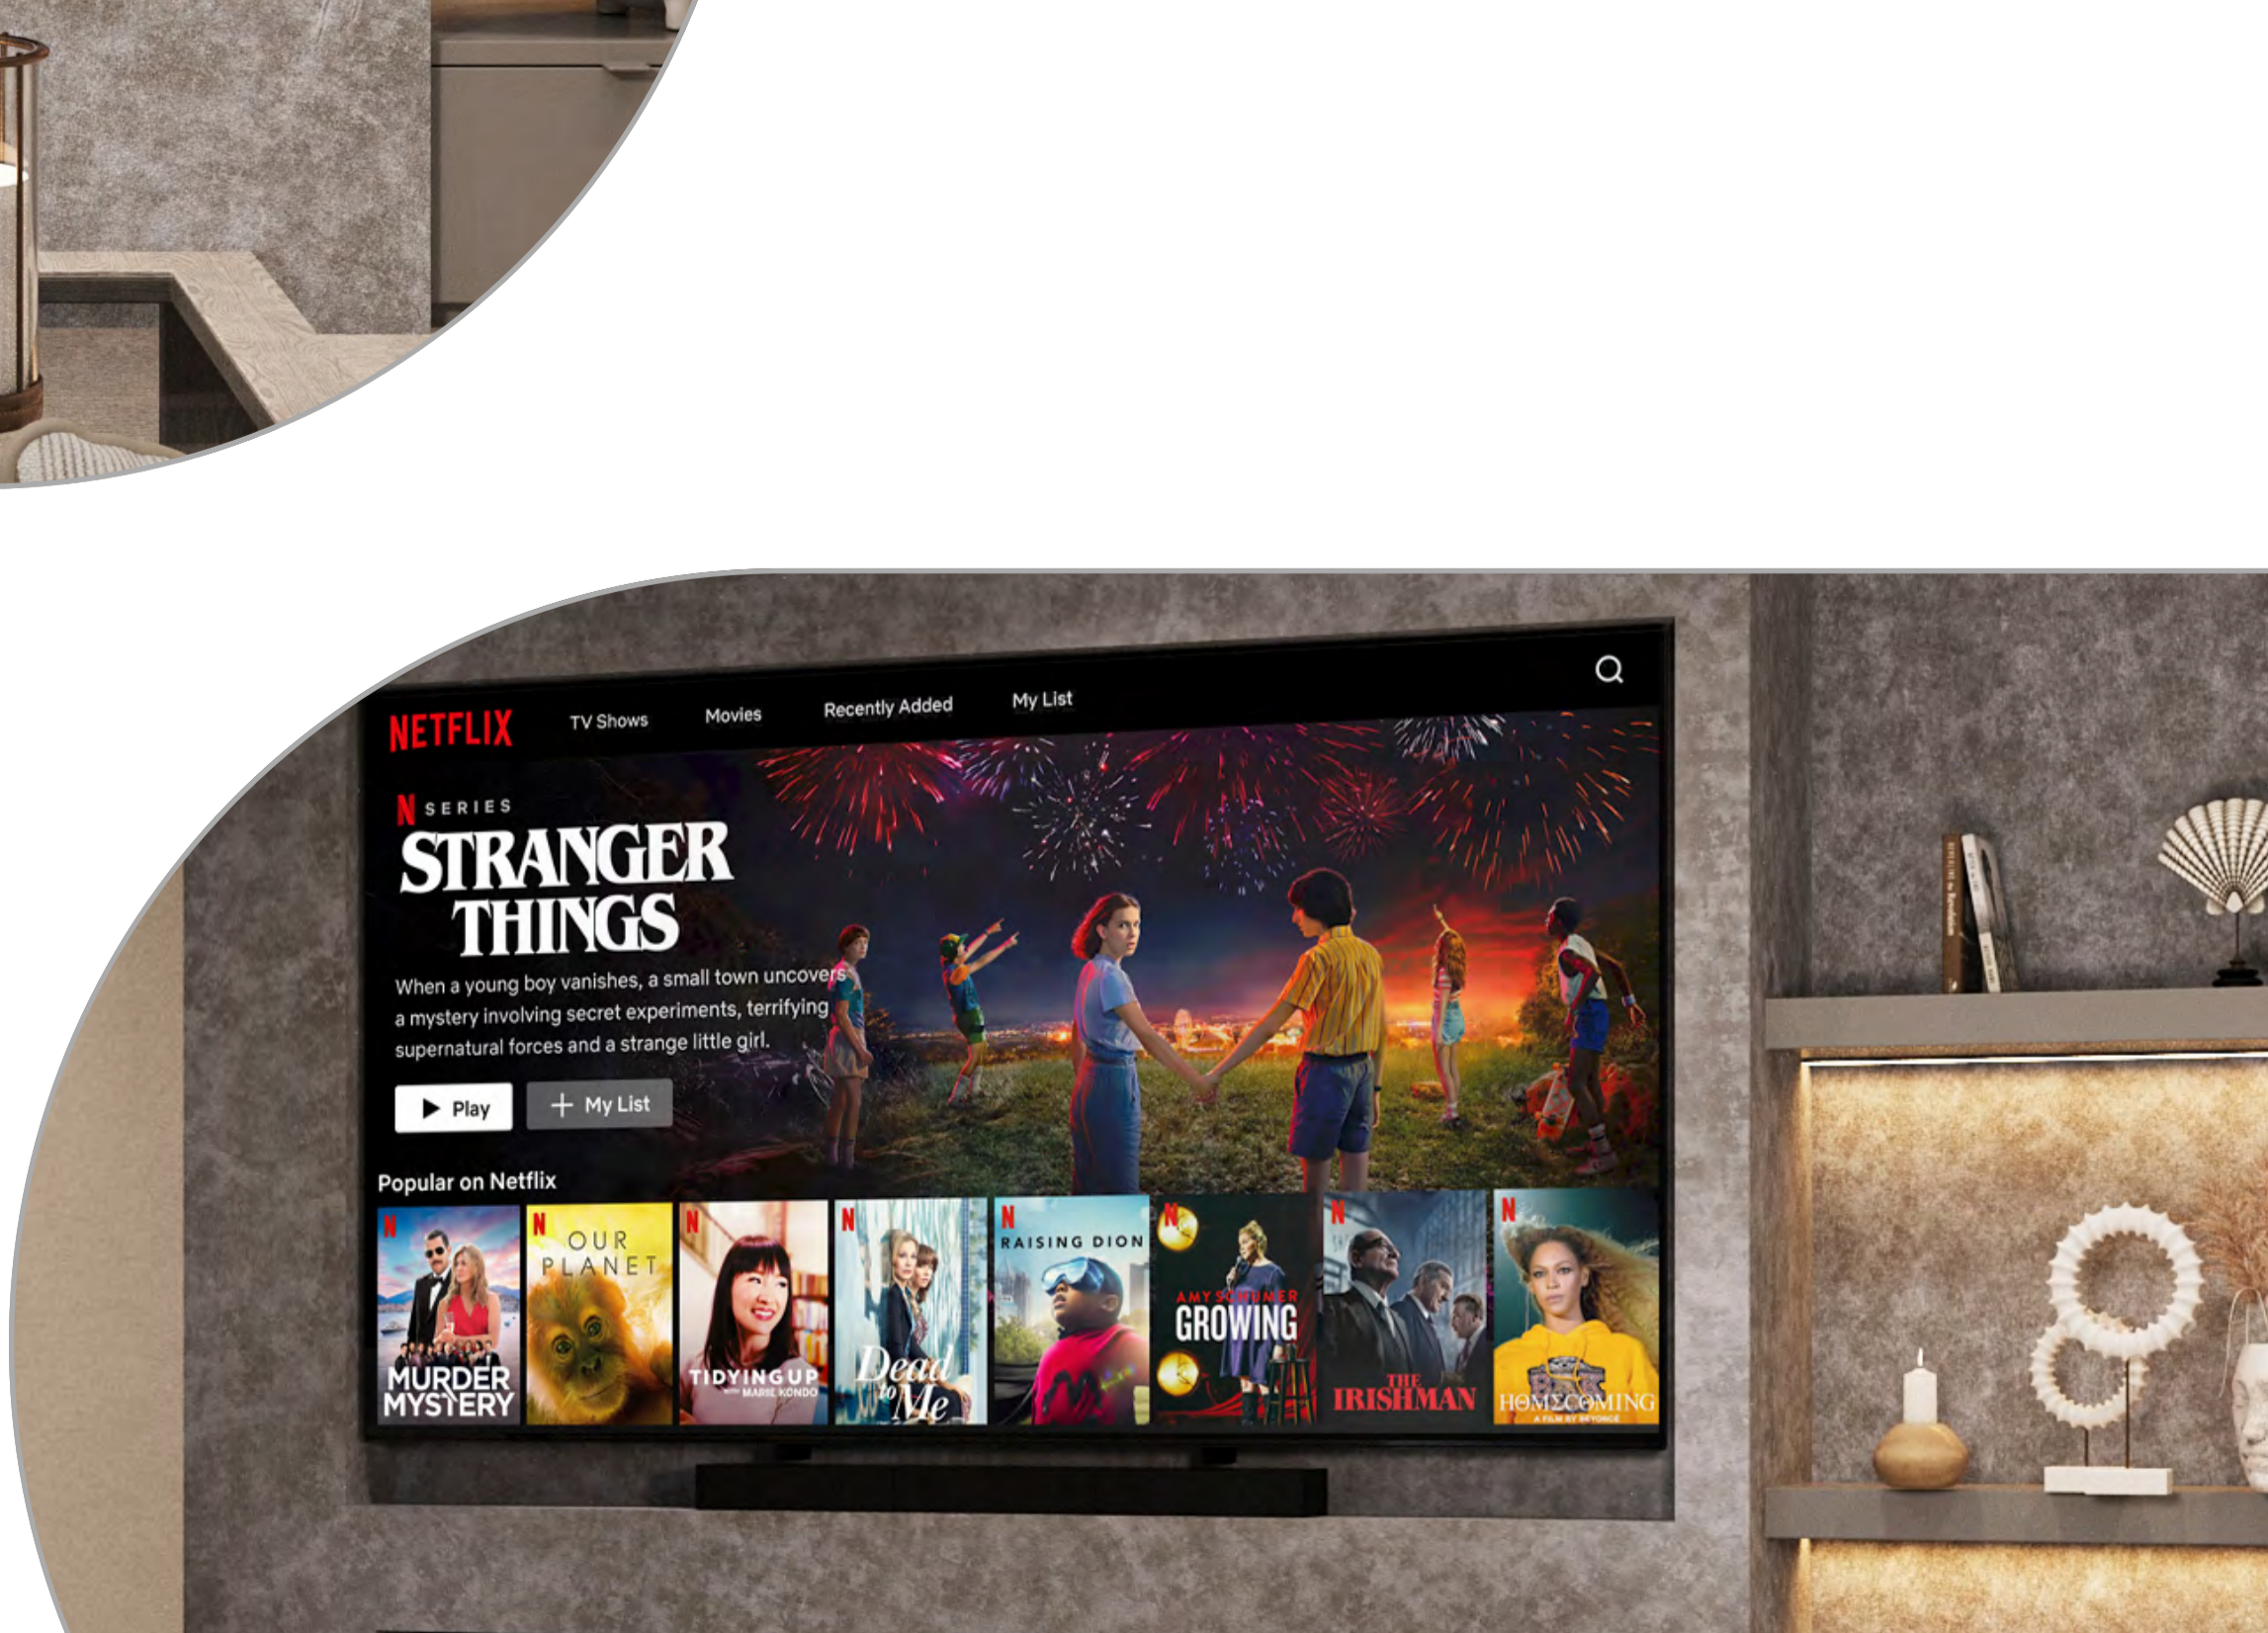

THREE SIDED

True to its name, showing both sides and the front provides a full panoramic view.

TWO SIDED

Conceal one side of the fire to fit it snugly into the corner. This flexible option accommodates left or right positioning and frees up space for extra storage.

ONE SIDED

Recessing the fire enhances the frontal perspective, covering both sides and imparting a sense of expanded space into your room.
