TigerPresentations

Counter Case Banner Graphic Installation

STEP 1: Find the "Top/Start" Sticker on your Banner Graphic, and the "Start Case Graphic Here" sticker on the case. Use these to begin applying the Counter Case Banner Graphic.

STEP 2: Apply the starting edge of the graphic to the velcro with the edge of the printed material aligned with the arrow on the "**Start Case Graphic Here**" Sticker.

STEP 3: Begin unrolling the graphic around the case. Keeping the graphic rolled makes it easier to control as you circle the case.

STEP 4: As you finish wrapping the graphic around the case, attach the end of the graphic to the velcro patch where you started *(at the "Start Case Graphic Here" sticker)*

STEP 5: On the bottom edge, attach the end of the graphic to the velcro patch. Pull the two ends gently to provide tension and get a clean finished look.

STEP 6: Finished unit

(Shown here with and without Monitor Arm)
