Abstract

Full Text

M. A. Ilyinskaya-Tsentilovich and B. P. Guryev. Peculiar features of the stem formation process in winter wheat varieties with regard to "lodging" . . . 217

PHYSIOLOGY

A. N. Aliev. The modes of development of intoxication in the case of administration to animals of subthreshold doses of *Vibrio septic* toxin . . . 220

E. M. Plisetskaya. Intestine and bladder musculature of a frog in ontogenesis, as acted upon by acetylcholine and adrenalin . . . 223

N. P. Samoshkin. On the changes occurring in the basal metabolism of rabbits in the course of development of experimental atherosclerosis . . . 227

A. M. Ugolev. Adaptive properties of gastric juice . . . 230

EMBRYOLOGY

V. I. Kanterova. The structure of intercotyledonal chorion in *Bos taurus* . . . 233

N. N. Rott. On certain regularities observed in the growth of a chick embryo at different temperatures of incubation . . . 237

CORRECTIONS

In the article by B. B. Govorkov, V. I. Gol' danskii, O. A. Karpukhin, A. V. Kutsenko and V. V. Pavlovskaya, "Elastic scattering of γ -quanta with energies up to 129 MeV by protons," published in *DAN*, vol. 111, no. 5, 1956:

Location	Printed	Should read
p. 989, line 1 from bottom	-19-II	-19-
p. 990, line 1 from bottom	statistical magnetic moment	static magnetic moment
p. 991	Received 14 VI 1956	Received 14 VIII 1956

In the article by the same authors, "Dependence of the cross sections of photo-production of π^0 -mesons on the mass numbers of nuclei," published in *DAN*, vol. 112, no. 1, 1957:

Location	Printed	Should read
p. 40, line 23	The yield of photoproduction of π^0 -mesons ...exceeds the yield for π^0 -mesons	The yield of photoproduction of π^\pm -mesons ...exceeds the yield for π^0 -mesons
Caption to Fig. 4	$1-\sigma_{\pi^+n}/\sigma_{\pi^+p}; 2-\sigma_{\pi^-p}/\sigma_{\pi^+p}$	$1-\sigma_{\pi^0p}/\sigma_{\pi^+n}; 1-\sigma_{\pi^0n}/\sigma_{\pi^-p}$

In Table 1, in the upper line the 4th and 5th columns are combined under $E_{\max} = 200$ MeV; it should be: 4th column $\bar{E}_{\max} = 200$ MeV, 5th column $\bar{E}_{\max} = 180$ MeV.

In the designation E_{\max} in the table and in the text, the averaging index has been omitted everywhere; it should be \bar{E}_{\max} .

In our article, published in *DAN*, vol. 111, no. 1, 1956 (V. S. Kirpichnikov, A. N. Svetovidov and A. S. Troshin, "Labeling carp with radioactive isotopes of phosphorus and calcium"), in Table 1 in our calculations an error was made: the figures in the last two columns should be 10 times smaller than those given in the table.

V. Kirpichnikov, A. Troshin, A. Svetovidov
