**Abstract**

**Full Text**

## **Letter to the Editor**

By way of clarification I report that Theorems 4 and 5 from my article “On the Functional Separability of Boolean Functions” (*DAN*, vol. 94, No. 5, 1954) and Theorem 7 from my article “Toward the Study of Symmetric Boolean Functions from the Point of View of the Theory of Relay-Contact Circuits” (*DAN*, vol. 104, No. 2, 1955) should be read with the words “except 0 and 1” prefixed to them. In consequence 2 of Theorem 6, formulated in the latter of the named articles (p. 185), where  $2^{n+1} \cdot n$  is printed, it should read  $2_n \cdot n$ .

G. N. Povarov
