Abstract

Full Text

MICROBIOLOGY

Pages

M. G. Vladimirova. On the development of colourless thiospirilla in a bacterial plate along with heterotrophic microorganisms 598

PLANT PHYSIOLOGY

L. A. Kniazeva. The formation of gutta in young roots of *Evonymus europaeica* . . 602

Yu. K. Kudzin and I. A. Makodzeba. Content and variation of soluble carbohydrates in the organs of vegetative propagation in *Acroptilon picris* CAM . . 606

ZOOLOGY

K. A. Vorobiev. On the biology of propagation in certain components of arctic and american ornithofauna in North-Eastern Yakutia 609

A. V. Monakov. Some data on the biology of development and propagation of *Acanthocyclops viridis* (Jur.) (Copepoda, Cyclopoida) 613

PHYSIOLOGY

B. I. Tkachenko. On alterations of cardiac output and vascular tonus in experimental hypertension 617

PARASITOLOGY

V. Yu. Mitskevich. On the interpretation of the development cycle of the nematode *Elaphostrongylus rangiferi* sp. nov. obtained from a reindeer 621

CORRECTION

In my article (G. Ts. Tumarkin, “On Simultaneous Approximation in the Mean of Complex-Valued Functions Given on Several Contours”), published in DAN, vol. 114, no. 4, 1957:

On p. 712, line 5 from the bottom, instead of the printed

$$\int_{\Gamma} |f_k(\zeta)|^p \rho(\zeta) |d\zeta| \leq \infty, \quad k = 1, 2, \dots$$

one should read

$$\int_{\Gamma} |f_k(\zeta)|^p \rho(\zeta) |d\zeta| \leq C < \infty, \quad k = 1, 2, \dots$$

On p. 710, line 12 from the bottom, instead of the printed

$$\rho(f_1, f_2) = \int_{\Gamma} |f_1 - f_2| d\sigma = \sum_{i=1}^n \int_{\gamma_i} |f_1 - f_2| d\sigma_i.$$

one should read

$$\rho(f_1, f_2) = \int_{\Gamma} |f_1 - f_2|^p d\sigma = \sum_{i=1}^n \int_{\gamma_i} |f_1 - f_2|^p d\sigma_i.$$

G. Ts. Tumarkin

Table No. 1 for the article by **V. N. Kordenshtein**, “New Data on the Gas Saturation of Underground Waters of the Paleogene Horizons of the Central Ciscaucasia in Connection with Questions of the Formation of Gas Deposits,” published in DAN, vol. 118, no. 3, 1958, was mistakenly pasted in on p. 556 instead of p. 574.
