Abstract

Full Text

Corrections

In our article published in *DAN*, vol. 118, no. 1, 1958 (R. G. Annaev and A. Allanazarov, “Investigation of the longitudinal and transverse galvanomagnetic effects on an n -type germanium single crystal along the principal crystallographic axes”), on p. 48, lines 17-20 should read: To remove the surface contamination of the single crystal, it was boiled for 2 min in hydrogen peroxide and then in distilled water.

R. G. Annaev

A. Allanazarov

In the article by A. V. Malyshev, “On the representation of large numbers by positive ternary quadratic forms with odd relatively prime invariants,” published in *DAN*, vol. 118, no. 6, 1958, on p. 1078, line 14 from the bottom, instead of $s \leq s_0$ there should be $s \geq s_0$.

Note: Figure translations are in progress. See original paper for figures.
