## ERRATUM

In our article (**A. V. Nikolskaya, V. A. Geiderikh, and Ya. I. Gerasimov**, “Thermodynamic Properties of Indium Antimonide”), published in *DAN*, vol. 130, no. 5, 1960, on p. 1074, line 11 from the bottom, instead of the printed 26062 one should read 23066; on p. 1076, line 3, the equation for  $\Delta Z = f(T)$  should read:  $\Delta Z = -FE = -23,066(0,345 - 0,241 \cdot 10^{-3}T) = -7,97 + 5,56 \cdot 10^{-3}T$  kcal/g-mol.
