LETTER TO THE EDITOR

In my article (S. N. Slugin, “Partially ordered topological groups”), published in *DAN*, vol. 136, no. 1, 1961, on p. 36, Definition 3 should read:

If a KT -group X is a K -group, then X will be called an (o) -complete KT -group.

In connection with this, the remarks placed between Definitions 3 and 4 are to be omitted.

S. N. Slugin
