Abstract

Full Text

HISTOLOGY

N. T. Shabarova. Organic acids in ancient deposits 1465

L. N. Diachkova, T. V. Davydova, N. K. Jacobson. The participation of mitochondria in the formation of synaptic vesicles 1467

GENETICS

D. F. Petrov, N. B. Zheleznova. Experimentally induced androgenesis in *Zea mays* 1470

N. B. Christolyubova, N. Z. Zagorskaja, P. M. Voikova. Regularities of the inheritance of experimentally induced functional variations in giant chromosomes 1473

MICROBIOLOGY

V. N. Shaposhnikov, M. V. Nefelova, T. I. Orlova, I. B. Mironova, V. S. Kuznetzova, O. V. Zubova, A. B. Silaev. The formation of new fractions of aurantine, and the study of their chemical and biological properties . . . 1476

BIOCHEMISTRY

A. S. Antonov, O. O. Favorova, A. N. Belozerskii. Certain characters of the nucleotide composition of desoxyribonucleic acids of animals and higher plants 1480

E. A. Boychenko, T. M. Udel' nova. Peroxide and phosphate-dilethanolamine production accompanying enzymotic reduction of carbonic acid 1484

D. I. Sapozhnikov, V. S. Saakov. The application of violaxanthin-C¹⁴ to the characteristic of the light reaction of xanthophyll transformation 1487

S. E. Severin, V. P. Skulachev, V. G. Sivkova, S. P. Maslov. The separation of oxidation and phosphorylation processes at the moment of the cessation of hypothermy 1489

N. M. Sisakian, E. N. Besinger, A. S. Marchukaitis. On the role of chloroplast lipoproteid in protein synthesis 1493

PLANT EMBRYOLOGY

L. I. Orel. The formation of sterile pollen in the tomato plant 1495

ZOOLOGY

E. V. Borutskii. The first discovery of a troglobiont from the Calanoida in subterranean waters 1499

EXPERIMENTAL MORPHOLOGY

V. V. Popov, E. B. Vsevolodov, Z. A. Sokolova. Experiments involving crystalline lens traumatization upon cutting of the optical nerve in adult frogs . . . 1503

PHYSIOLOGY

V. A. Govyrin, G. R. Leontieva. Catechol amines of the bird heart during ontogenesis 1507

G. L. Zhdarov, I. B. Sorokina, V. P. Mal' kova, E. P. Semkin. The role played by separate groupings of the N-dichloroacetyl-*D*, *L*-serin molecule in its biological activity 1510

EMBRYOLOGY

G. A. Schmidt. Correlation between the rudiments of proboscis and fore-gut (pharynx) in *Nemertini Lineus desori* (mihi, sp. nov.) and *Lineus ruber* (O. F. Müller, 1774, G. A. Schmidt, 1945) 1512

ENDOCRINOLOGY

J. M. Kabak, E. V. Sokolova. The effect of extracts of the hypothalamus and the posterior lobe of the pituitary body on the secretion of the luteinizing hormone 1516

CORRECTIONS

In the article by **S. V. Kiselev, R. P. Ozerov, and G. S. Zhdanov**, "Neutronographic detection of magnetic ordering in the seignette-electrics BiFeO_3 ," published in *DAN*, vol. 145, no. 6, 1962, on p. 1255, the second line from the bottom should read: The synthesis of the samples was carried out by S. A. Fedulov and B. G. Nikolov.

In the proof of Theorem 5 of my note (**D. L. Berman**, "Polynomial operations commutative with a shift"), published in *DAN*, vol. 144, no. 3, 1962, in the right-hand sides of equalities (14) \tilde{U}_n was printed; it should be U_n . To correct the proof, the last two lines on page 469 should be replaced by the following two lines:

We change the order of integration and note that

$$\frac{1}{2\pi} \int_0^{2\pi} U_n [D_n(z - t_1), x - z_1 + t_1] dt_1 = \tilde{U}_n [D_n(z), x - z_1].$$

D. L. Berman

T-15405 Signed for printing 20/XII-1962. Print run 5525 copies. Order 1280

Paper format 70\$×108^{1}/_{16}\$ Printed sheets 8½ Paper sheets 23.3 + 2 inserts Publisher' s accounting sheets 24.6

2nd Printing House of the Publishing House of the Academy of Sciences of the USSR. Moscow, Shubinskii Lane, 10
