**Abstract**

**Full Text**

**Corrections**

In my article (L. G. Mikhailov, “On a Boundary-Value Problem of Linear Conjugation” ), published in DAN, vol. 139, No. 2, 1961, on p. 294, in Theorem 1, the condition  $|a(t)| > |b(t)|$  was omitted, and on p. 297, line 8, in the expression  $G(t)$ , instead of  $[b_1(t) - b_2(t)]$  it should read  $[b_1(t) - a_2(t)]$ .

L. G. Mikhailov

---

In the article by V. V. Petrov, “On Integral Theorems for Large Deviations,” published in DAN, vol. 138, No. 4, 1961, the following corrections must be made:

On p. 779, line 7, printed  $X_1, X_2$ , should read  $X_1, X_2, \dots$

On p. 779, line 13 from the bottom, printed

$$\frac{s}{2(s+3)} < \alpha,$$

should read

$$\frac{s}{2(s+2)} < \alpha.$$
