## Abstract

## Full Text

V. A. Nekrasova, V. N. Stepanov. Types of water temperature variation along the vertical in the world ocean . . . . . 713

### *BIOPHYSICS*

N. I. Nuzhdin, N. N. Kuznetsova, L. K. Ramaya. The effect of X-ray exposure of animals at the period of pregnancy on variations in the peripheral blood of their progeny . . . . . 717

### *BIOCHEMISTRY*

B. B. Vartapetian. The rate of water metabolism in marine teleostei fish . . . 721

V. V. Korkhov. The curative effect of sodium salt of phenylethylacetic acid, vanadyle sulphate and their combination in the case of experimental atherosclerosis . . . . . 724

V. L. Kretovich, Z. S. Kagan. Biosynthesis of valine from its analogon in sunflower sprouts . . . . . 727

I. B. Naumova, A. N. Belozerskii, F. A. Shafikova. Isolation and certain properties of teichoic acid from *Actinomyces streptomycini* Krass . . . . . 730

In E. Udalov. On the mode of action of vitamin B<sub>15</sub> (pangamic acid) . . . 734

N. M. Emanuel' , N. P. Konovalova, L. M. Dronova. A kinetic description of the antitumoral activity of chemical compounds belonging to different classes 737

### *BOTANY*

N. F. Mikhailova. On the germination of resting spores of *Chaetoceros lauderi* Ralfs . . . . . 741

### *PHYSIOLOGY*

I. V. Chudakova. Variations in the excitability of motoneurons of the sternal ganglion in *Locusta migratoria* L. in response to the stimulation of the suprapharyngeal ganglion . . . . . 743

### *EMBRYOLOGY*

T. A. Detlaf, S. È. Zubova. A correlation between the periods of maturation and embryonic development in *Acipenser Güldenstaedtii* and *A. stellatus* 746

## CORRECTIONS

In the article by N. A. Kiselev and L. L. Kiselev, "Electron Microscopy of Soluble Ribonucleic Acids," published in *DAN*, vol. 141, no. 4, 1961, the following caption

should appear for Fig. 1:

Fig. 1. **A** –S-RNA from wheat germs in acetate-ammonium buffer ( $\mu = 0.16$ ); 130 000 $\times$ ; ratio of object height to shadow  $1 : 7.5 \pm 1$ . **B** –S-RNA from yeast ( $\mu = 0.15$ ); 130 000 $\times$ ; ratio of object height to shadow  $1 : 7.6 \pm 0.5$ . **C** –S-RNA from yeast in water ( $\mu = 1 \cdot 10^{-5}$ ); 200 000 $\times$ ; ratio of object height to shadow  $1 : 8.4 \pm 0.5$ .

---

In the article by A. Sh. Faitelson, “The Riga Pre-Devonian Depression,” published in *DAN*, vol. 140, no. 1, 1961, the caption to Fig. 1 should read: Contour of the Riga Pre-Devonian depression.

---

In the article by V. V. Petrov, “On Integral Theorems for Large Deviations,” published in *DAN*, vol. 138, no. 4, 1961, the following corrections must be made:

On p. 779, line 7,  $X_1, X_2$  is printed; it should read:  $X_1, X_2, \dots$

On p. 779, line 13 from the bottom, it is printed

$$\frac{s}{2(s+3)} < a,$$

it should read:

$$\frac{s}{2(s+2)} < a.$$

---

In my article (L. G. Mikhailov, “On One Boundary Value Problem of Linear Conjugation”), published in *DAN*, vol. 139, no. 2, 1961, on p. 294 in Theorem 1 the condition  $|a(t)| > |b(t)|$  was omitted, and on p. 297, line 8, in the expression  $G(t)$ , instead of  $[b_1(t) - b_2(t)]$  it should be  $[b_1(t) - a_2(t)]$ .

*L. G. Mikhailov*
