**Abstract**

**Full Text**

## **CORRECTIONS**

In the article by G. A. Konkova, “On the connection between the newest and modern tectonic movements and methane-bearing and outburst zones under the conditions of the Donets Basin,” published in *DAN*, vol. 143, No. 3, 1962, in Fig. 1, instead of the printed “Kuznetsk,” one should read “Donetsk.”

---

In my article (N. P. Korneichuk, “On the existence of a linear polynomial operator giving the best approximation on a class of functions” ), published in *DAN*, vol. 143, No. 1, 1962, the following corrections must be made:

On p. 26, line 17 from the bottom, in the left-hand side of the equality, the printed expression  $\|\bar{u}_n(\varphi, x)\varphi(x)\|$  should read  $\|\bar{u}_n(\varphi, x) - \varphi(x)\|$ .

On p. 27, line 27, it should be: ...with length greater than  $\frac{\pi}{n+1}(1-\varepsilon)$ , where  $\varepsilon > 0$  and does not depend on  $n$ .

*N. P. Korneichuk*
