## LETTER TO THE EDITOR

In my article (N. F. Morozov, “On the analytic structure of a membranous solution” ), published in *Doklady AN*, vol. 152, no. 1, 1963:

- 1) The norm in the space  $l$  should be introduced according to the rule

$$\|v\|_l = \sum_{n=0}^{\infty} |c_n|.$$

- 2) Equation (7) should be solved not by the method of successive approximations, but by Chaplygin’ s method.

In all other respects, the proofs and results of the article remain unchanged.

I express my gratitude to V. I. Yudovich and L. S. Srubshchik, who drew my attention to these inaccuracies.

*N. F. Morozov*
