Abstract

Full Text

CORRECTION

In B. R. Vainberg' s article "On hypoelliptic equations in the whole space and the limiting absorption principle," published in *DAN*, vol. 155, no. 1, 1964, the following corrections should be made.

	Printed	Should read
p. 20, line 4	$P\left(-\frac{\partial}{\partial x}\right)u(x) =$	$P\left(i\frac{\partial}{\partial x}\right)u(x) =$
p. 20, line 1 from bottom	$D(-i\sigma_j(\omega))$	$D_p(-i\sigma_j(\omega))$
p. 21, line 13	$R^{1-n} \int_{R < r < 2R}$	$R^{-1} \int_{R < r < 2R}$
p. 21, line 4 from bottom	was always greater	was always smaller
p. 22, line 3 from bottom	$D(-i\sigma_j(\omega))$	$D_p(-i\sigma_j(\omega))$

Note: Figure translations are in progress. See original paper for figures.
