

## Bibliography of journal articles

**Authors:** A. R. Shakun

**Date:** 1965-01-01T00:00:00+00:00

**Abstract**

**Full Text**

**Preamble**

**DIFFERENTIAL EQUATIONS, 1965, Vol. I, No. 6**

### Bibliography of Journal Articles

**Averbukh.** Formula for the fundamental solution of elliptic equations with double-symmetric roots. *Vestnik Moskovskogo Universiteta. Seriya I: Matematika, Mekhanika*, 1965, No. 1.

**Almukhamedov, M. I.** On the construction of a differential equation having given curves as its limit cycles. *Izvestiya Vysshikh Uchebnykh Zavedenii. Matematika*, 1965, No. 1, pp. 12-16.

**Andreev, A. F.** Remarks on an article by S. Lefschetz. *Differentsial nye Uravneniya*, 1965, Vol. I, No. 2, pp. 199-203.

**Andreev, A. F.** On a problem of Hartman-Wintner. *Differentsial nye Uravneniya*, 1965, Vol. I, No. 1, pp. 33-40.

**Bajraktarević, M.** On solutions of certain functional and integral equations. *Matematicheskii Sbornik*, 1965, Iss. 2.

**Bakushinskii, A. B.** A method for the numerical solution of integral equations. *Vychislitel nye Metody i Programirovanie*, III. Moscow, Moscow State University Publishing House, 1965.

**Barbashin, E. A., and Gerashchenko, E. I.** On the acceleration of sliding modes in automatic control systems. *Differentsial nye Uravneniya*, 1965, Vol. I, No. 1, pp. 25-32.

- Belenky, V. Z.** A standard program for integrating a system of differential equations using the Adams method. *Vychislitel nye Metody i Programmirovaniye*, III. Moscow, Moscow State University Publishing House, 1965.
- Belonosov, S. M., and Ismailov, M. A.** The first boundary value problem for the differential equation of elastic equilibrium of a shallow cylindrical shell. *Differentsial nye Uravneniya*, 1965, Vol. I, No. 2, pp. 219-226.
- Belukhina, I. G.** On the difference approximation of certain nonlinear boundary conditions for one-dimensional parabolic equations. *Vychislitel nye Metody i Programmirovaniye*, III. Moscow, Moscow State University Publishing House, 1965.
- Berkovich, F. D.** On an integral equation on the semi-axis in the class of functions growing at infinity. *Doklady Akademii Nauk SSSR*, 1965, No. 2, pp. 255-258.
- Blinov, I. N.** Analytical representation of the solution to a system of linear differential equations with a periodic, slowly oscillating coefficient matrix depending on a parameter. *Vestnik Leningradskogo Universiteta. Seriya Matematika, Mekhanika i Astronomiya*, 1965, Iss. 1, pp. 5-13.
- Blinov, I. N.** Linear differential systems with piecewise constant periodic coefficients. *Avtomatika i Telemekhanika*, 1965, No. 1, pp. 180-183.
- Bobkov, V. V.** The method of integral relations in solving the Goursat problem for a system of first-order equations. *Differentsial nye Uravneniya*, 1965, Vol. I, pp. 267-274.
- Bobkov, V. V., and Krylov, V. I.** The method of integral relations for systems of hyperbolic equations. *Differentsial nye Uravneniya*, 1965, Vol. I, No. 2, pp. 230-243. Bibliography: 30 refs.
- Bogdanov, Yu. S.** Asymptotic characteristics of nonlinear differential systems. *Differentsial nye Uravneniya*, 1965, Vol. I, No. 1, pp. 41-52.
- Borisov, A. P.** Sufficient conditions for the existence of periodic solutions in a system of differential equations with discontinuous right-hand sides. *Vestnik Moskovskogo Universiteta. Seriya I: Matematika, Mekhanika*, 1965, No. 2, pp. 22-34.
- Borisova, S. Yu.** Asymptotic representation of the solution to a boundary value problem for an integro-differential equation with a small parameter at the higher-order derivatives. *Doklady Akademii Nauk Ukrainskoi SSR*, 1965, No. 2, pp. 139-143.
- Boyarchuk, A. K.** A homogeneous difference scheme on a non-uniform grid for a fourth-order differential equation with discontinuous coefficients. *Doklady Akademii Nauk Ukrainskoi SSR*, 1965, No. 1, pp. 6-10.
- Brish, N. I., and Valeshkevich, I. N.** The Fourier method for non-stationary equations with general boundary conditions. *Differentsial nye Uravneniya*, 1965,

Vol. I, No. 3, pp. 393-399.

**Budak, B. M., and Uspenskii, A. B.** A difference method for solving boundary value problems for quasilinear integro-differential equations of parabolic and hyperbolic types with discontinuous coefficients. *Vychislitel' nye Metody i Programirovanie*, 1965, pp. 473-508.

**Buravsky, E. S., and Yaremchuk, F. P.** On the determination of eigenvalues and eigenfunctions of a homogeneous boundary value problem for a fourth-order ordinary differential equation. *Doklady Akademii Nauk Ukrainskoi SSR*, 1965, No. 3, pp. 259-263. (In Ukrainian).

**Butuzov, V. F.** Asymptotics of solutions to differential equations with a small parameter at the derivative on a semi-infinite interval. *Vestnik Moskovskogo Universiteta. Seriya I: Matematika, Mekhanika*, 1965, No. 1, pp. 16-25.

**Bylov, B. F.** On a criterion for almost reducibility. *Sibirskii Matematicheskii Zhurnal*, 1965.

**Bylov, B. F.** On the structure of solutions to a system of linear differential equations with almost-periodic coefficients. *Matematicheskii Sbornik*, 1965, Iss. 2, pp. 215-229.

**Vainikko, G. M.** On the convergence and stability of the collocation method. *Differentsial' nye Uravneniya*, 1965, Vol. I, No. 2, pp. 244-254.

**Valikov, K. V.** On the asymptotic behavior of solutions to a nonlinear parabolic equation. *Doklady Akademii Nauk SSSR*, 1965, No. 4, pp. 743-745.

**Viner, I. Ya.** Transformation of differential operators in the space of holomorphic functions. *Uspekhi Matematicheskikh Nauk*, 1965, Iss. 1, pp. 185-188.

**Vinogradov, N. N.** Some theorems on the existence of a periodic solution for an autonomous system of six differential equations. *Differentsial' nye Uravneniya*, 1965, Vol. I, No. 3, pp. 330-334.

**Vityuk, A. N.** On two-sided approximations to the solution of systems of first-order ordinary differential equations not solved for the derivatives. *Doklady Akademii Nauk Ukrainskoi SSR*, 1965, No. 3, pp. 284-287. (In Ukrainian).

**Vlasov, I. M.** Sufficient conditions for the integral stability of systems of ordinary differential equations. *Izvestiya Vysshikh Uchebnykh Zavedenii. Matematika*, 1965, No. 1.

**Volkov, E. A.** The lack of justification for Bachelet's majorant method and error estimation for the grid method solution of a mixed boundary value problem. *Zhurnal Vychislitel' noi Matematiki i Matematicheskoi Fiziki*, 1965, No. 1.

**Vorobiev, A. P.** On rational solutions of the second Painlevé equation. *Differentsial' nye Uravneniya*, 1965, Vol. I, No. 1.

**Gabasov, R.** On the stability of stochastic systems with a small parameter at the derivatives. *Uspekhi Matematicheskikh Nauk*, 1965, Iss. 1, pp. 189-196.

**Gaisaryan, S. S.** On the construction of initial values for the integration of a system of ordinary differential equations by the Adams method. *Vychislitel' nye Metody i Programirovanie*, III. Moscow, Moscow State University Publishing House, 1965, pp. 262-265.

**Gelman, A. E.** On the reducibility of systems with a quasi-periodic matrix. *Differentsial' nye Uravneniya*, 1965, Vol. I, No. 3, pp. 283-294.

**Golubentsev, A. N.** On random perturbations of a linear differential operator. *Doklady Akademii Nauk Ukrainskoi SSR*, 1965, No. 2, pp. 144-146.

**Golubentsev, A. N.** On the natural linearization of nonlinear differential equations on a finite interval. *Doklady Akademii Nauk Ukrainskoi SSR*, 1965, No. 3, pp. 281-284. (In Ukrainian).

**Gorbunov, A. D.** On certain methods for determining parameters in differential equations based on experimental data. *Vychislitel' nye Metody i Programirovanie*, III. Moscow, Moscow State University Publishing House, 1965, pp. 293-306.
