## ERRATUM

In our article (A. A. Babaev and V. V. Salaev, “On an analogue of the Plemelj-Privalov theorem in the case of nonsmooth curves and its applications” ), published in *DAN*, vol. 161, no. 2, 1965, the following corrections must be made.

On p. 267, line 7 from the bottom, it is printed:  $\omega(f, \delta) \leq cf\varphi(\delta)$ ; it should read:  $\omega(f, \delta) \leq c\varphi(\delta)$ .

On p. 268, in inequality (3), it is printed

$$\int_{\beta(\delta)}^{\varepsilon/2} \frac{\varphi(\alpha(s))}{\alpha(s)} ds,$$

it should read

$$\int_{\beta(\delta)}^{1/2} \frac{\varphi(\alpha(s))}{\alpha^2(s)} ds.$$

On p. 268, in condition (11) of the lemma, it is printed

$$\frac{\varphi(\alpha(c\delta))\alpha^2(\delta)}{\varphi(\alpha(\delta))\alpha^2(\delta)},$$

it should read

$$\frac{\varphi(\alpha(c\delta))\alpha^2(\delta)}{\varphi(\alpha(\delta))\alpha^2(c\delta)}.$$
