Abstract

Full Text

Preamble

DIFFERENTIAL EQUATIONS, JANUARY, VOL. II, NO. 1

Agranovich, M. S. Elliptic singular integro-differential operators. *Uspekhi Matematicheskikh Nauk*, 1965, 20, no. 5, pp. 3–120. Bibliography included.

Azbelev, N. V. and Tsalyuk, Z. B. On the question of differential inequalities. *Differentsial nye Uravneniya*, 1965, vol. I, no. 4, pp. 431–438. Bibliography included.

Aleksandryan, R. A. Construction of a complete set of solutions for the homogeneous Dirichlet problem for the string vibration equation. *Doklady Akademii Nauk SSSR*, 1965, 162, no. 2.

Aleksandryan, R. A. On the spectral decomposition of arbitrary self-adjoint operators by eigenfunctions. *Doklady Akademii Nauk SSSR*, 1965, 162, no. 1. Bibliography included.

Alekseev, V. M. A theorem on integral inequalities and some applications. *Matematicheskii Sbornik*, 1965, 68, no. 2, pp. 251–273. Bibliography included.

Alekseeva, E. V. Differential equations for the expansion coefficients of a distribution function in Hermite polynomials with the simplest weight function. *Aerodinamika Razrezhennykh Gazov*, coll. 2, 1965.

Aliev, R. G. and Efendiev, A. R. Application of the Seidel method to a boundary value problem. *Doklady Akademii Nauk Azerbaidzhanskoi SSR*, 1965, 21, no. 2, pp. 3–9.

Aliev, R. G. On some properties of solutions to fourth-order ordinary differential equations. *Izvestiya Vysshikh Uchebnykh Zavedenii. Matematika*, 1965, no. 2.

Aliev, N. A. and Zeynalov, I. S. Representation of the solution to a problem of integral residues. *Differentsial' nye Uravneniya*, 1965, vol. I, no. 9.

Andreev, A. F. On the number of operations in the investigation of a singular point of a differential equation by Frommer' s method. *Differentsial' nye Uravneniya*, 1965, vol. I, no. 9, pp. 1155-. Bibliography included.

Andreev, V. B. Iterative alternating-direction schemes for the numerical solution of the third boundary value problem in a p-dimensional parallelepiped. *Zhurnal Vychislitel' noi Matematiki i Matematicheskoi Fiziki*, 1965, 5, no. 4, pp. 626-637. Bibliography included.

Anisimov, A. G. On a high-accuracy sweep method. *Izvestiya Vysshikh Uchebnykh Zavedenii. Matematika*, 1965, 4, pp. 3-7.

Arzhanykh, I. S. On the invariant properties of systems of ordinary differential equations ensuring the existence of two integrals. *Izvestiya Akademii Nauk Uzbekskoi SSR. Seriya Fiziko-Matematicheskikh Nauk*, 1965, no. 3, p. 63.

Arzhami, J. and Yurichich. Numerical investigation of the stability of periodic solutions to the Duffing equation. Trans. by S. A. Kharlamov. *Mekhanika*, 1965, no. 5, pp. 3-. Bibliography included.

Arnold, V. I. On the conditions for nonlinear stability of plane stationary curvilinear flows of an ideal fluid. *Doklady Akademii Nauk SSSR*, 1965, 162, no. 5. Bibliography included.

Arsenyev, A. A. A problem for the linearized Boltzmann equation. *Zhurnal Vychislitel' noi Matematiki i Matematicheskoi Fiziki*, 1965, 5, no. 5, pp. 864-882. Bibliography included.

Arsenyev, A. A. A problem for the linearized Boltzmann equation. *Doklady Akademii Nauk SSSR*, 1965, 163, no. 5.

Atakhodzhaev, M. On the uniqueness of a problem in potential theory. *Izvestiya Akademii Nauk Uzbekskoi SSR. Seriya Fiziko-Matematicheskikh Nauk*, 1965, no. 1, pp. 5-8.

Afanasyev, E. F. Some problems for the heat equation with mixed boundary conditions. *Differentsial' nye Uravneniya*, 1965, vol. I, no. 5.

Akhmetkaliev, T. On the connection between the stability of stochastic difference-differential systems. *Differentsial' nye Uravneniya*, 1965, vol. I, no. 8. Bibliography included.

Akhunbaev, M. A. A mixed problem for a parabolic-type equation. *Uchenye Zapiski Ferganskogo Instituta. Seriya Matematika*, 1965, issue 1.

Ashirov, S. Application of the Chaplygin method to the solution of parabolic differential equations in Banach space. *Izvestiya Akademii Nauk Turkmenkoi SSR. Seriya Fiziko-Tekhnicheskikh, Khimicheskikh i Geologicheskikh Nauk*, 1965, no. 2, pp. 3-7.
