**Abstract**

**Full Text**

## **CORRECTION**

In my article (S. Ya. Yakubov, “Nonlocal solvability of boundary-value problems for quasilinear partial differential equations of hyperbolic type” ), published in *DAN*, vol. 176, no. 2, 1967, the following corrections must be made.

1. The function  $\Phi(r)$  in Theorems 2 and 3 must be real-valued.
2. The author can assert the validity of Theorem 3 only for  $q = m(n-2m)^{-1}$ , in view of an error in the proof.
3. On p. 282, line 10, instead of the phrase “As is easy to see, ...” it should read: “The results of our article <sup>(3)</sup> make it possible to obtain for (9) a local existence theorem for the mixed problem or the Cauchy problem for any  $p$ . As for the nonlocal theory, no new results are obtained.”

*S. Ya. Yakubov*
