Abstract**Full Text**

	Pages
V. A. Kondratiev, S. D. Eidelman. On the character of solutions to linear evolutionary systems with elliptical space part	468
S. L. Krushkal. A contribution to the study of the dependence of holomorphic differentials on the moduli of riemannian surfaces	472
I. I. Marnershtein. Boundedness of solutions to some systems of linear partial difference equations	475
A. I. Perov, T. K. Katsaran. Non-linear multidimensional differential equations	479
S. G. Samko. On closed-form solvability of singular integral equations	483
L. S. Frank. Hyperbolic difference operators	486
L. L. Tsinman. Certain algorithms in a formal arithmetical system	489
M. I. Eskin. Boundary value probleme for the redefined system of two second-order equations	491

CYBERNETICS AND THE REGULATION THEORY

	Pages
V. A. Iakubovich. Finitely converging algorithms of solution to enumerable systems of inequalities and their application to problems of adaptive system synthesis	495

PHYSICS

	Pages
Iu. K. Alekhin. Surface wave arising near a rough interface between two media	499
E. A. Arinstein. The asymptotic behaviour of correlation functions in a critical region	502
V. L. Bonch-Bruevich. Interzonal transitions in non-ordered systems with slowly varying random field	505
L. L. Buishvili, N. P. Giorgadze. A contribution to quantum-statistical theory of spin diffusion	508
V. A. Voloshin, A. A. Galkin, A. I. Savutskii. Decrease of luminescence decay time constant of europium benzoyl acetate under the influence of all-round compression	511
V. N. Erofeev, V. I. Nikitenko, V. B. Osvenskii. Effect of impurities on overcoming of high Peierls barriers by dislocations	513
L. V. Iogansen, F. A. Uvarov. Search for lower collective electron excitations in the benzene ring	516
A. V. Kulemin, A. M. Mitskevich. Diffusion in the Cu–Zn system under sign variable deformations	518

	Pages
O. M. Todes. Fluctuation kinetics and the determination of kinetic coefficients	521

TECHNICAL PHYSICS

	Pages
I. A. Dobrushina, M. R. Spasskii, I. G. Shatalova, E. D. Shchukin. Kinetics of the vibrational densification of tungsten powder	525
L. I. Mirkin. Plastic deformation of metals under the influence of a laser light impulse of 10^{-8} sec. duration	528

CRYSTALLOGRAPHY

	Pages
D. P. Shashkin, M. A. Simonov, N. V. Belov. Crystalline structure of uralborite $Ca_2[B_4O_4(OH)_8]$	532

CORRECTIONS

In the article by S. P. **Pekar**, "High-pressure chemical lasers and light-stimulated chemical reactions," published in DAN, vol. 187, No. 3, 1969, on p. 556, line 28, n^{-3} was printed; it should read n^{-2} .

In the article by A. D. **Sidorenko**, "Wave adiabats for media with an arbitrary equation of state," published in DAN, vol. 178, No. 4, 1968, on p. 820, line 9,

$$(\partial P/\partial V)_S = (P - P_0)(V - V_0),$$

was printed; it should read

$$(\partial P/\partial V)_S = (P - P_0)/(V - V_0);$$

on p. 821, line 14,

$$\int_0^T c_v |_{v=\text{const}} dT < 2aT,$$

was printed; it should read

$$\int_0^T c_v |_{v=\text{const}} dt < 2c_v T.$$

Note: Figure translations are in progress. See original paper for figures.
