Abstract

Full Text

- A. D. Ventsel, M. I. Freidlin. Small random perturbations of a dynamic system in a stable equilibrium position –506
- S. N. Kruzhkov. Linear and non-linear parabolic systems on a plane –510
- V. E. Liantse. On the perturbation of a continuous spectrum –514
- G. A. Margulis. On the arithmetic discrete groups –518
- A. J. Khelemskii. Relations between the structure of some nilpotent associative algebras and the structure of their ideals –521

CYBERNETICS AND THE REGULATION THEORY

- V. P. Zarovnyi. Decoding selftune automata –525
- S. J. Zaslavskii, K. A. Ivanov-Muromskii. Automatic forecast of the course of diseases by means of digital computers –528

AERODYNAMICS

- N. R. Sibgatullin. Non-linear relativistic waves in spercompressed gas –531

THEORY OF ELASTICITY

- V. A. Babeshko. Asymptotic properties of solutions to certain integral equations –535

PHYSICS

- M. D. Bondarenko, A. V. Gnatovskii, M. S. Soskin. A holographic method for the transformation of coherent light fields –538
- F. V. Bunkin, I. I. Tugov. The possibility of electron-positron pair production in vacuum when laser radiation is focussed –541
- M. M. Denisov. Induced transitions of a relativistic electron in a homogeneous magnetic field –545
- M. M. Myshliaev, V. I. Nikitenko. High temperature creep of single silicon crystals –549
- V. E. Pafomov. Electron-positron pair study –552
- S. I. Pekar. Chemical lasers of high pressure and light-stimulated chemical reactions –555

TECHNICAL PHYSICS

- E. S. Golovina, V. S. Chaplygina, L. L. Kotova. Self-diffusion of carbon –558
- E. A. Zhurakovskii, N. N. Vasilenko. X-Ray emission K_{α} -band of nitrogen in nitrides of IV, V and VI-group transition metals –562

I. V. Telegina, E. V. Kolontsova. Small-angle scattering of X-ray by single lithium fluoride crystals irradiated by neutrons –566

CRYSTALLOGRAPHY

N. E. Filonenko, T. P. Nikitina, N. M. Kamentseva. Sectorial growth of cubic boron nitride crystals –569

CORRECTIONS

In my article (M. S. Rozovskii, “Comparison of Unary Regular Gear Mechanisms by Means of Combinatorial Schemes”), published in *DAN*, vol. 184, no. 5, 1969, on p. 1066, line 26 from the bottom, instead of the printed: “Let ps be the output immediately preceding pq ,” it should read “Let ps be the output immediately following pq .”

M. Rozovskii

In the article by E. A. Anfert’eva and N. G. Chudakov, “On Minima of the Norm Function in Imaginary Quadratic Fields,” published in *DAN*, vol. 183, no. 2, 1968, on p. 255, formula (2) should be read as

$$\begin{aligned}
 L(s, \chi)L(s, X) &= \frac{1}{2} \sum_{\nu=1}^h \sum'_{x,y} \frac{\chi(Q_{\nu}(x, y))}{Q_{\nu}^s(x, y)} = \\
 &= L(2s, \chi^2) \sum_{\nu=1}^h \chi(a_{\nu}) a_{\nu}^{-s} + \sum_{\nu=1}^h a_{\nu}^{-s} \Phi_{\nu} \left(\frac{b_{\nu}}{2a_{\nu}} \right). \quad (2)
 \end{aligned}$$

Submitted for typesetting 30/IV-1969. T-07088. Signed for publication 17/VI-1969. Print run 1470 copies.

Order 2184. Paper size $70 \times 108^{1/16}$. Conventional printed sheets 22.4+4 inserts. Paper sheets 8. Publisher’s accounting sheets 22.8.

2nd printing house of the “Nauka” Publishing House. Moscow, Shubinskii Lane, 10.
