

“And it’s a human need to be told stories. The more we’re governed by idiots and have no control over our destinies, the more we need to tell stories to each other about who we are, why we are, where we come from, and what might be possible.”

Alan Rickman

The Black List was compiled from the suggestions of more than 500 film executives, each of whom contributed the names of up to ten favorite feature film screenplays that were written in, or are somehow uniquely associated with, 2024 and will not have begun principal photography during this calendar year.

This year, scripts had to receive at least 9 mentions to be included on The Black List.

It has been said many times, but it's worth repeating: The Black List is not a "best of" list. It is, at best, a "most liked" list.

All reasonable effort has been made to confirm the information contained herein. The Black List apologizes for all misspellings, misattributions, incorrect representation identification, and questionable 2024 affiliations.

THUMB

Cesar Vitale

When a lonely and socially-stunted young woman mistakenly receives a severed thumb in the mail, she makes it her life's obsession to return it to the hand it once belonged to—putting her on a collision course that will upend her world forever.

YELLOW WALLPAPER

Taylor Streit

A headstrong woman living in 1975 America descends into madness as she battles postpartum depression, dismissive family, and a gaslighting husband. The mounting oppression and untreated psychosis come together to tell the origin story of a haunted house.
