MAN V.O.

(continues behind titles)
Danger hides in the stars. This is the world of Jason of Star Command. A space age soldier of fortune determined to stop the most sinister force in the Universe, Dragos, Master of the Cosmos.

Aiding Jason in his battle against evil is a talented team of experts. All working together in a secret section of Space Academy. Jason of Star Command.

In our last episode the Academy was falling towards a blazing sun. Jason escaped from Dragos with Princess Allegra. In the escape they were stranded on a crumbling planetoid and Jason sent Wiki for help.

And now, Chapter 5, Wiki to the Rescue.

Character

Dialogue

INT. ACADEMY

PROF. E.J. PARSAFOOT Ooh, it's no use. The controls won't respond. (Sighs) And we are getting nearer and nearer to that sun.

PROFESSOR Any word from Commander Canarvin?

MAN V.O. Not since he escaped from the alien ship Professor.

PROFESSOR But he should have been back long ago.

MAN V.O. Yes sir, we'll try to establish contact.

DRAGOS (on monitor) Attention Star Command. This is Dragos. Your ship is falling fast into the heart of an exploding sun. Without your defence shields, you are helpless. I would prefer to capture your ship intact, therefore I am offering you a choice, surrender immediately and I will cease jamming your control generators, if not ... well.

PROFESSOR This is Professor E.J. Parsafoot speaking. I..I'm I...I..I'm...I'm in control here. And the answer is no.

DRAGOS (on monitor) Fool. Do you realise what will happen to your vessel when it collides with the sun?

PROFESSOR Yes I do. But we'll take our chances.

DRAGOS (on monitor) The Academy will be mine in any case. I am offering to spare your vessel irreparable damage.

PROFESSOR We appreciate your.. kindness, but the answer is still no.

DRAGOS (on monitor) You have thirty seconds. Then I will withdraw my offer.

PROFESSOR What about the defence shields?

MAN V.O. Still inoperable sir. Our controls are still being jammed.

DRAGOS (on monitor) There is no more time. (loudly) Will you surrender?

PROFESSOR Never.

Dialogue

EXT. SURFACE OF PLANETOID

SPACESHIP ENGINES HEARD OFF.

JASON

Wiki made it, brought some help.

JASON

Come on, let's go.

EXPLOSION. PLANETOID SURFACE SHAKES.

INT. STAR FIRE

JASON

No time for introduction. Let's get out of here.

JASON

Thank you Wiki.

WIKI SQUEAKS.

NICOLE

And who's this?

JASON

Oh, Nicole meet Allegra, the Crown Princess of Klabu (?).

JASON

Dragos had her in his power, usurped her throne. A little matter I intend to square one of these days.

INTERCOM BLEEPS.

NICOLE

Come in Star Command.

PROFESSOR (on monitor)

Jason, Nicole, Dragos is jamming our control generators. We're falling into a sun. No chance. You must help us.

MONITOR GOES BLANK AND HISSES.

NICOLE

Professor. Come in. Professor. What can we do?

PROFESSOR (on monitor)

Get to the Dragonship. Stop the jamming beam. Somehow ... before it's too late.

MONITOR GOES BLANK AGAIN, HISSING.

JASON

Standby the controls Professor. We'll do something. I don't know what, but something.

Character

Dialogue

INT. DRAGONSHIP

MAN V.O. Master, a Star Command Star Fire now in green sector.

DRAGOS Capital. I want every ship that Star Command possesses. In the meantime I am more interested in seeing how well the Academy can fare in the heart of an exploding sun.

INT. STAR FIRE

ALLEGRA Look.

NICOLE It's the Dragonship.

JASON He wants a Star Fire? We'll give him one.

NICOLE Jason, what are you going?

JASON I've activated the destruct circuits. Turn on your life support systems.

NICOLE You mean you're going to blow up the Star Fire.

JASON Exactly. In the mouth of the Dragonship. Now get ready to bail out. I'll take the Star Fire in.

NICOLE Jason that's very gallant of you, but you're forgetting just one thing. Dragos' sensors would notice an absence of life forms. We'll all have to stay until the very last possible second or else he'll know we got away.

JASON Yes. I'm sending Wiki out to tell the Commander know where we are.

WIKI SQUEAKS.

JASON Okay little pal. You do your stuff.

WIKI SQUEAKS.

JASON Okay, we go next. Now.

EXT. SPACE

JASON Let's set down some place before Dragos spots us.

NICOLE That planetoid down there.

Character

Dialogue

JASON Let's head for it.

EXT. SURFACE OF PLANETOID

JASON Atmosphere checks. Look.

STAR FIRE EXPLODES INSIDE DRAGONSHIP'S
MOUTH.

JASON It worked.

INT. DRAGONSHIP

ALARMS RINGING, SMALL EXPLOSIONS.

DRAGOS Emergency power. Immediately.

EXT. SURFACE OF PLANETOID

JASON We've disabled the Dragonship. That should help
the Academy.

INT. ACADEMY

PROFESSOR Wait. Something's happened. Jason must have
gotten to Dragos. The... the beam's been shut
off and our energizers are activating themselves.
We have control.

COMMANDER CANARVIN Full flight power. Ahead all engines.

INT DRAGONSHIP

DRAGOS Damage report.

MAN V.O. Repair crews at work Master. We shall have full
control back within the hour.

DRAGOS The Star Fire ship and its crew, what about them?

MAN V.O. There was no crew aboard Master. The ship was
empty.

DRAGOS No crew. You're out there somewhere. Right back
interceptors, search sector five for Jason and
his companions. Launch. (yells) Launch.

Character

Dialogue

EXT. SURFACE OF PLANETOID

JASON

Well, we're safe ... for now. Let's hope Wiki gets through to the Academy.

INT. DRAGONSHIP

MAN V.O.

Dragon calling Dragos. I have a target, but it is not a human.

DRAGOS

What is it, fool?

MAN V.O.

It's a small robot.

DRAGOS

It must be Jason's. Capture it.

MAN V.O.

Yes Master.
