

Character

Dialogue

JASON But we're not on your planet. Just stick close to us. Come on, let's go.

MONSTER APPEARS, HISSING
AND ROARING (CONTINUES IN
BACKGROUND).

ALLEGRA (yells) Jason. Jason.

JASON Over here. Allegra, over here. Move towards us slowly.

ALLEGRA SCREAMS.

JASON Your pin.

NICOLE We'll get you.

JASON Go get her Nicole. Come on. Come on.

MONSTER SHOOTS AT JASON.

JASON Better luck next time pal. Come on. Come on, come on. Come on. Come on. Come on.

MONSTER SHOOTS AT JASON.

JASON Missed again. Maybe I can scare him off.

NICOLE Are you all right?

JASON I'm fine.

ALLEGRA Jason, I'm sorry.

JASON It's all right. We all make dumb moves from time to time. Even little princesses. Thanks Nicole.

NICOLE Any time.

JASON Meanwhile we've got to find a way off this rock. Just hope Wiki got through.

INT. ACADEMY

PROF. E.J. PARSAFOOT

Commander, it's Wiki!

COMMANDER CANARVIN

He's trapped by one of Dragos' ships. We might just be able to do something about that. Now. Deflectors full power. We can intercept that tractor beam.

Character

Dialogue

PROFESSOR

We got him. Yeah.

CHEERS IN BACKGROUND
OVERLAPS.

COMMANDER

Docking crew, take up the mini robot.

MAN V.O.

Sir, (coughs) his name is Wiki.

COMMANDER

Yes I know. Wiki. Pick him up.

INT. DRAGONSHIP

MAN V.O.

Master, we have lost the robot.

DRAGOS

You fool.

INT. ACADEMY

COMMANDER

Thanks to Wiki we now know where Jason and Nicole are. The problem is getting to them.

PROFESSOR

Dragos will be waiting.

COMMANDER

And our energy's too low to risk fighting him.

WIKI SQUEAKS.

PROFESSOR

Don't worry Wiki. We won't leave him there.

WIKI SQUEAKS.

PROFESSOR

Suppose Dragos ran into an ion storm.

COMMANDER

An ion storm? How do we do that Professor?

PROFESSOR

Erum. Well, not a real one. Aaaha.
Commander, my latest invention.

INT. DRAGONSHIP

MAN V.O.

Emergency. Emergency.

DRAGOS

An ion storm. Impossible.

MAN V.O.

Emergency. Emergency.

Character

Dialogue

DRAGOS Helmsman, change course immediately. Vector six five two. Now.

MAN V.O. Yes Master.

INT. STAR FIRE

PROFESSOR Our little illusion seems to have had its effect on Dragos. (laughs) It should distract him long enough for us to reach Nicole and Jason. (laughs with Wiki)

EXT. SURFACE OF PLANETOID

JASON It's a Star Fire. It's a Star Fire engine I hear.

NICOLE It sure is.

JASON There.

ALLEGRA They found us. They found us.

JASON Come on.

INT. STAR FIRE

PROFESSOR Quickly, we don't have a lot of time.

JASON It's good to see you again Wiki.

WIKI SQUEAKS.

PROFESSOR Dragos.

DRAGOS (on monitor) Your little illusion was very clever Professor Parsafoot. However, it did not fool me for long. You have interfered with my plans for the last time. Now you shall become a part of the limbo of the lost. Out of space. Out of time. Beyond anything your childish science knows. (laughs)

JASON Here we go again Parsafoot. Any sign of a planet to land on?

PROFESSOR Nothing Jason.

JASON We've got to get Allegra out of here. Is there a mini-cat escape pod on board?

Character

Dialogue

PROFESSOR Yes. But it's only fuelled to carry one passenger.

JASON You're elected Princess. I'll set the giros to get you back to the Academy. The mini-cat is too small for Dragos' scanners to pick up.

ALLEGRA No Jason. I should stay with you.

JASON Not this time Princess.

JASON Come on, get going.

JASON There's a planet down there. Get ready to land. There's no power. The ship's dead.

NICOLE Limbo of the lost. What did he mean?

JASON We'll soon find out.

MAN V.O.

(continues behind titles)
Chapter 7. Marooned in Time. What did Dragos mean by limbo of the lost? Don't miss the next exciting episode when Jason comes face to face with Captain Kidd.
